EXPERIENCE

Insan Wa Alat, Amman — Full Stack Web Developer

JULY 2021 - PRESENT

Responsible for designing front-end and back-end for web applications while ensuring responsiveness and cross-platform optimization for mobile phones. Collaborated with graphic designers for web design features.

The Online Project, Amman — Social Media Moderator

FEBRUARY 2019 - APRIL 2020

Monitored social media pages for different institutions to answer customer questions and deliver their feedback and pain points to the responsible team.

Raqsh Wa Naqsh, Riyadh — Designer and Illustrator

JULY 2016 - JULY 2017

Created and designed custom art pieces and full company branding following briefs provided by clients.

EDUCATION

Udemy, Online — UX Design Essentials

APRIL 2022 - MAY 2022

Princess Sumaya University, Amman — B.Sc. in Computer Science

SEPTEMBER 2017 - AUGUST 2021

PROJECTS

Goodreads Redesign

Chose to redesign the book community website “goodreads” to address common user pain points following UX design process.

Graduation Project

Collaborated with my graduation project teammates to create a mobile application that connects users to home care services. Responsible for designing and developing the front-end of the app.
